Main conference: January 15-17, 2015

The annual Symposium on Principles of Programming Languages is a forum for the discussion of all aspects of programming languages and programming systems. Both theoretical and experimental papers are welcome, on topics ranging from formal frameworks to experience reports.

Co-located events:

CPP: Certified Programs and Proofs
CoqPL: Coq for Programming Languages - A Coq users and developers meeting
OBT: Off the Beaten Track: New Frontiers for Programming Languages Research
PEPM: Partial Evaluation and Program Manipulation
PiP: Principles in Practice
PLMW: Programming Languages Mentoring Workshop
PLVNET: Programming Languages and Verification Technology for Networking
VMCAI: Verification, Model Checking and Abstract Interpretation
WEPL: Emerging Research and Development Trends in Programming Languages

Register at:
